PROTEGUN platform redefines the way home & business owners communicate with their security system.

Forget about missed phone calls and confusing beep tones. PROTEGUN mobile app lets you receive alarm events (intrusions, panic, fire etc.) almost instantly on your smartphone phone.

By just adding a pocket-size communicator, get notified of all important security events via push-notification with full details. The device runs on data, so there are no costly calls or SMS charges incurred on your phone.

PROTEGUN platform integrates with virtually any security system on the market.
